

EUROLUB AdBlue[®]

Description

High-purity urea solution for SCR exhaust after-treatment / AUS 32 in accordance with ISO 22241.

Application: Do not fill the fuel tank or any other fluid reservoirs in the vehicle; fill only the separate AdBlue[®] tank marked for this purpose!

Recommended storage temperature between 0°C and +30°C.
Avoid direct sunlight.

When not in use, AdBlue[®] containers must be sealed airtight.

AdBlue[®] can freeze at -11°C. It is therefore important to store it in a location where the temperature cannot fall below this level. If AdBlue[®] has frozen, it can be reused after thawing, as it returns to its original state.

If the storage instructions are followed correctly, AdBlue can be stored for up to one year.

Can be used with

AUS 32 gem. ISO 22241

Audi G 052 910 A4
BMW 83 19 0 441 139
