Separating cord, 95daN, 135m

Description

Special cord made of high-strength braided polyethylene fibers with a small diameter of 0.50 mm. For gently removing glass panes sitting very deep on the bodywork flange, as is common in newer vehicles from Audi and the Volkswagen Group. The very small diameter means it can be pulled by hand or in combination with the LIQUI MOLY Glass Pane Separator. Soft and flexible, helping to protect against damage to paint or interior trim. Risk of injury is significantly reduced. OEM-compliant as silicone and wax-free. Tensile strength: 95 kg (95 daN).

Areas of application

Suitable for LIQUI MOLY Glass Pane Separators.

Available pack sizes

1 pcs Carton	21110 D
