

EUROLUB KLARE SICHT WINTER -30°C

Description

Clear View Winter –30° is a windscreen washer fluid additive formulated with alcohols, surfactants, fragrances and colourants. It prevents the washer fluid from freezing in frosty conditions and effortlessly removes dirt in winter traffic, whilst ensuring a clear view in summer.

The product is used undiluted, but can also be diluted with water to achieve the desired reduction in freezing point. The product can be used in all windscreen and headlamp washer systems. Furthermore, it is suitable for polycarbonate windscreens (Hella test) and for vehicles with fan nozzles.

- Fully biodegradable
- Methanol-free
